# 3M 2023 Results update

Briefing May 2023

This document summarizes the financial results for the first quarter of 2023 ('3M 2023') for Allianz Global Corporate & Specialty® (AGCS) and for Allianz Group, both of which were announced on May 12, 2023.

## Further information

Full details of Allianz Group results for 3M 2023, including the analysts' presentation, are available at Allianz Group's Investor Relations [web pages](#).

## IFRS 17/9 impact

Q1 2023 is the very first quarterly closing under the new international accounting standards IFRS 17 and IFRS 9. Hence, unless otherwise stated, all financial KPIs are reported under IFRS 17 and IFRS 9, and therefore cannot be directly compared to any numbers reported in previous years. AGCS results are shown on a 'Core' basis, effectively entailing gross net of facultative cessions for the insurance revenue, claims and expenses, and reinsurance results focusing on treaty reinsurance outcome.

"With the first-time application of IFRS 9 and 17, we delivered results with even more clarity and transparency and proved our ability to create value", says Allianz Chief Financial Officer Giulio Terzarior.

<sup>1</sup> Specifically, Allianz Global Corporate & Specialty SE, Allianz Risk Transfer AG, Allianz Risk Transfer (Bermuda) Ltd., Allianz Global Corporate & Specialty North America (legal names Allianz Global Risks US Insurance Company, Allianz Underwriters Insurance Company and AGCS Marine Insurance Company), Fireman's Fund Insurance Company and subsidiaries, AGCS Japan (legal name Allianz Fire and Marine Insurance Japan Ltd.), AGCS Re Brazil (legal name Allianz Global Corporate & Specialty Resseguros Brasil S.A.) and Allianz Global Corporate & Specialty South Africa Ltd.

## 1. Allianz Group results 3M 2023

Allianz's first quarter results demonstrated strong performance and proven resilience across all segments.

**Total business volume** rose by 3.9% to €46.0 billion (3M 2022: €44.3 billion), largely driven by the Property-Casualty business segment. **Operating profit** jumped 24.2% to €3.7 billion (3M 2022: €3.0 billion). **Net income attributable to shareholders** was €2.0 billion (3M 2022: €0.5 billion) due to a provision related to the AllianzGI US Structured Alpha matter. The **Solvency II capitalization ratio** was 206% at the end of Q1 2023, compared with 201% at the end of Q4 2022.

In the **Property-Casualty** business, **total business volume** jumped 11.2% to €24.1 billion (3M 2022: €21.7 billion). Adjusted for foreign exchange and consolidation effects, **internal growth** was strong at 11.1% supported by volume, price and service effects. **Operating profit** surged by a strong 22.7% to €1.9 billion (3M 2022: €1.5 billion) due to a higher operating insurance service result which was partly offset by a slightly lower operating investment result. The **combined ratio** improved by 1.9 percentage points to 91.9% (3M 2022: 93.8%). The loss ratio benefited from a higher discounting effect and lower claims from natural catastrophes.

In the **Life/Health** insurance business, **total revenues** were at €20.1 billion (3M 2022: €20.6 billion). The **present value of new business premiums** amounted to €18.5 billion (3M 2022: €21.1 billion). **Operating profit** increased to €1.3 billion (3M 2022: €0.8 billion).

In **Asset Management**, **operating profit** was €723 million (3M 2022: €832 million) **Third-party assets under management** were €1.668 trillion as of March 31, 2023, down by €33 billion from the end of 2022.

## 2. AGCS results 3M 2023

In Q1 2023, AGCS **Total Gross Premium Written (GPW)** of EUR 3.736 billion is +20% better than prior year (Q1 2022: €3.118 billion). **Core Gross Net Premium Written (GNPW)** of AGCS (i.e. premium net of fronting and facultative reinsurance) increased year-over-year by €487 million to €2.508 billion (Q1 2022: €2.021 billion) driven by strong new business, higher rates on renewals (7% on average incl. adjustment for terms and conditions) as well as a higher renewal base in multiple lines of business. Almost all lines of business achieved year-over-year growth, especially Alternative Risk Transfer, MidCorp and Property.

### AGCS Total Gross Premium Written 3M 2023 vs. 3M 2022 (IFRS 17/9)

The **Core Combined Ratio** for Q1 2023 is roughly in line with prior year and stands at 93.2% (Q1 2022: 93.0%). The improvement in both the current accident year loss ratio, benefitting from higher interest rates leading to a higher claims reserve discounting benefit, and the expense ratio is offset by a higher reinsurance ratio. The profitable underwriting performance allowed for an additional build-up of reserves, mainly to address inflation risks.

The **Operating Profit** for Q1 2023 of €202 million (Q1 2022: €182 million) is €20 million better than prior year mainly due to a better insurance service result.
