

Blanca Berruguete

Global Industry Solutions Director for Construction

Effective May 1, 2022, Blanca Berruguete is appointed Global Industry Solutions Director for Construction at Allianz Global Corporate & Specialty (AGCS), based in Madrid. In that role, she will drive solutions for risks concerning the construction industry.

The Global Industry Solutions Director at AGCS works closely with underwriting and key account management to build industry-specific expertise as well as best practice among the regions and sister Allianz entities, with the goal of finding the best possible solutions for customers within the Allianz universe.

The Construction sector is a fast-paced, project-driven industry that becomes increasingly challenging to manage in light of the newly emerging risks and market volatilities. AGCS is here to help with comprehensive industry solutions particularly targeting building and civil engineering, infrastructure contractors, green energy contractors, heavy and light industry contractors.
