Group 12M: operating profit at record level

Comments

- **Strong internal growth of 8.0%**
Internal growth in P/C at 11.2%, L/H at 5.6% and AM at 2.4%. Consolidation (+0.2%) and F/X (-2.7%) lead to total revenue growth of 5.5%.
- **Operating profit at 104% of target midpoint**
All segments above or close to target midpoint.
- **Shareholders' core net income excellent at EUR 9.1bn**
Increase driven by operating profit (Δ EUR +0.9bn), non-operating result (Δ EUR +1.0bn) and tax result (Δ EUR +0.3bn).
- **Core RoE rises to 16.0%**
Net income growth and disciplined capital management.
- **Share buy-back**
A total of 10.1mn shares was acquired in 2023, of which 3.2mn shares for the EUR 1bn SBB announced in 2022 and finished in 1Q 2023 and 6.9mn shares for the EUR 1.5bn SBB announced in 2023, representing in total 2.5% of issued capital as of YE 2022. Number of shares issued at 391.7mn and number of shares outstanding at 391.5mn as of YE 2023.
- **P/C – operating profit at EUR 6.9bn**
OP at EUR 6.9bn (+1%), thereby at 99% of outlook midpoint. Very good investment result, partially offset by lower insurance service and other operating result. Higher CR, driven by NatCat (Δ +0.6%-p/ Δ EUR +0.5bn) and inflation. Double-digit internal growth benefiting from strong rate change.
- **L/H – strong operating profit**
OP of EUR 5.2bn (+23%) at 104% of FY outlook midpoint. CSM release of EUR 5.0bn in line with expectations. Very good contribution from operating investment result. Normalized CSM growth strong at 4.9%. NBM excellent at 5.9%. VNB slightly up 2.2% to EUR 4.0bn.
- **AM – operating profit above outlook midpoint**
EUR 2.2tn total AuM/EUR 1.7tn 3rd party AuM, EUR 22bn 3rd party net inflows. EUR 3.1bn operating profit at 104% of outlook midpoint. Very strong performance fees. CIR at 61.3%, better than outlook 2023.
- **Corporate & Other – better than expected**
Operating loss of EUR -474mn (Δ EUR +66mn) at 59% of FY outlook midpoint (better).

Comments

- **Internal growth excellent at 10.9%**
Internal growth in AM at 15.3%, L/H at 11.5% and P/C at 9.8%. Consolidation (-0.5%) and F/X (-2.5%) lead to total revenue growth of 7.8%.
- **Operating profit strong at EUR 3.8bn**
Double-digit profit growth in L/H and Asset Management. Profit growth in P/C affected by high level of NatCat.
- **Shareholders' core net income at EUR 2.4bn**
Increase driven by operating profit (Δ EUR +0.5bn) and non-operating result (Δ EUR +0.6bn). Prior-year non-operating profit impacted by an onerous contract provision of EUR 0.4bn for the expected disposal loss from the sale of our Russian business operations.
- **EUR 1.5bn share buy-back finished**
A total of 6.9mn shares was acquired, representing 1.7% of issued capital as of YE 2022. Number of shares issued at 391.7mn and number of shares outstanding at 391.5mn as of YE 2023.
- **P/C – solid OP despite EUR 0.8bn NatCat**
OP up 2%, supported by very good investment result. CR worsens mainly due to higher NatCat and weather-related claims. Internal growth excellent at +9.8% supported by rate changes.
- **L/H – strong profit growth**
CSM release of EUR 1.3bn in line with expectations. Strong contribution from operating investment result. Normalized CSM growth at 1.6%. VNB grows 2.9% to EUR 1.0bn as a result of new business sales growth of 10.3% and very good NBM of 5.9%.
- **AM – excellent operating profit**
EUR 912mn operating profit. EUR 2.2tn total AuM. EUR 1.7tn 3rd party AuM, up 3% due to strong markets, despite adverse F/X and net outflows. Strong performance fees. Very good CIR at 60.5%.
- **Corporate & Other – better than expected**
Operating loss of EUR -115mn narrows by EUR 101mn.

	-50bps	-5%-p	
Credit spread +50bps	on gov. bonds	-5%-p	
	on non-gov. bonds	-1%-p	

3) For SII ratio, if stress applied to traded equities only, sensitivities would be +3%-p/-3%-p for a +/-30% stress

Group: strong solvency II ratio

Comments

- **Comprehensive shareholders' capital**

Shareholders' equity increases by EUR 4.1bn. Main drivers:

- + EUR 8.5bn shareholders' net income
- + EUR 2.6bn net OCI
- EUR 4.5bn dividend payout
- EUR 2.2bn impact of share buy-backs.

Net CSM up following strong normalized CSM growth in L/H.

- **SII sensitivities**

Slightly increased sensitivities mainly due to lower interest rates. In a combined stress scenario, we estimate an additional impact due to cross effects of ~-2%-p compared to the sum of the individual sensitivities.

- **Transitionals**

Including transitionals, the Group SII ratio stands at 229%. Our general capital steering will continue to focus on the SII ratio excluding the application of transitional measures for technical provisions.

- **SII ratio – FY 2023**

Increase of 5%-p from 201% to 206%. Major drivers:

- + 27%-p organic capital generation (+7%-p after tax and dividend accrual)
- + 4%-p regulatory/model changes
- 16%-p capital management and management actions: dividend accrual for new payout policy, share buy-back announced/ completed in 2023; positive net impact of subdebt transactions
- 8%-p tax/other driven by tax
- 1%-p market impact.

- **SII ratio – 4Q 2023**

Decrease of 6%-p from 212% to 206%. Main drivers:

- + 7%-p organic capital generation
- + 2%-p regulatory / model changes
- 6%-p market impact
- 8%-p capital management incl. catch-up impact for new payout policy, management actions, tax/other.

Group: 27%-p operating capital generation

Own funds (EUR bn)

SII capitalization

○ Pre-tax operating capital generation

SCR (EUR bn)

1) Including cross effects and policyholder participation
2) Other effects on SCR include diversification effects

Group: 27%-p operating capital generation

Comments

- **+27%-p gross SII capital generation in FY 2023**
+7%-p capital generation after tax and dividend. Growth-related capital requirements for P/C business; L/H SCR for business evolution is flat, consistent with strategic shift of business portfolio towards preferred/capital-light products.
- **+7%-p gross SII capital generation in 4Q 2023**
No net capital generation due to -2%-p catch-up impact of additional dividend accrual due to new payout policy.
- **Operating SII earnings**
EUR +13.8bn operating SII earnings at a new all-time high. Earnings are in line or close to IFRS results.
- **Regulatory / model changes**
+4%-p, driven by model changes. Inclusion of former book-value deduction entities increases own funds and SCR; impact on SII ratio close to zero.
- **Market impact**
-1%-p impact. Strong equity markets, but lower interest rates and adverse real estate re-evaluations.
- **Capital management/management actions**
-16%-p impact. Own funds impacted by EUR -5.4bn dividend accrual, EUR -1.5bn share buy-back and +0.6bn subdebt transactions.
- **Tax/other**
-8%-p driven by tax.
- **Expected impacts FY 2024**
+6%-p to +8%-p net operating capital generation in line with new payout policy.
UFR decrease from 3.45% to 3.30% is expected to lower SII ratio by ~1%-p in 1Q 2024.
The announced share buy-back of EUR 1bn is expected to decrease the SII ratio by ~2%-p in 1Q 2024.

1) Excluding fronting & captives, providing a better reflection of AGCS' underlying business performance

P/C: double-digit internal growth

Comments

- **Excellent internal growth of 11.2%**
Strong growth throughout the entire year driven by price (+6.9%), volume (+4.0%), and service fees (+0.3%). Consolidation (+1.0%) and F/X (-3.7%, mainly TRY, ARS, AUD and USD) lead to total growth of +8.4%. Rate change on renewals with good momentum at +7.1%. Insurance revenue (earned premium) grows +7.5%.
- **Germany – all lines of business support growth**
Higher top-line mainly driven by motor and SMC business.
- **UK – strong rate change, particularly in motor retail**
Motor retail, SME and MidCorp main growth drivers.
- **France – strong pricing actions only partly offset by lower volumes**
Retail and SME business main contributors.
- **Italy – good growth mainly from positive price effect**
Retail motor and non-motor as well as MidCorp business drive growth.
- **Australia – strong growth driven by price and volume**
Higher top-line in retail and commercial from positive volume and price effects. Negative F/X effect impacts total growth.
- **CEE – mainly Austria, Romania and Czech Republic**
- **Spain – driven by positive price effect**
All lines of business contribute to top-line growth.
- **Switzerland – price effect compensated by lower volume**
Internal growth driven by MidCorp. F/X effect lifts total growth.
- **Allianz Partners – positive volume effect**
Growth in travel, international health and assistance business.
- **AGCS¹ – good rate change, new business and retention**
MidCorp, Property as well as Energy & Construction support growth.
- **Allianz Trade – strong retention and new business**
Good growth in trade credit insurance as well as surety.

2) Reinsurance ratio: 2.7% in 2022, 3.8% in 2023

P/C: operating profit at EUR 6.9bn

Comments

- **Solid result despite elevated NatCat**
OP up 1% due to better investment result, partly compensated by insurance service result as well as 'other' result. The latter declines driven by a lower fee result, prior year gains from sale of own-used property as well as extra-profit charges. CR up +0.6%-p, mainly from higher NatCat (Δ +0.6%-p), while improvements in attritional LR and ER are offset by the normalization of run-off result.
- **Attritional loss ratio improves to 69.1%**
Attritional LR down -0.7%-p supported by higher discounting effect of -2.9% (Δ -1.2%-p). Undiscounted attritional LR at 72.0%, slightly above FY 2022 (71.5%) mainly due to inflation.
- **Elevated NatCat impact**
NatCat losses at EUR 2,316mn/3.4%, above prior year (EUR 1,778mn/2.8%) and 5Y FY average of 2.4%, driven by a series of storm, hail and flood events throughout 2H 2023. Normal expectation for NatCat in 2024 at ~3%.
- **Expense ratio improves -0.3%-p to 24.6%**
Positive mix effect and top-line growth above cost inflation.

- **Run-off ratio at -3.2% – in line with normal expectation**
Release of risk adjustment contributes -0.8%-p.
- **Combined ratio by customer segment**
CR in retail (incl. SME and fleet) up +0.8%-p driven by inflation as well as NatCat and weather claims. CR in motor at 97.9%. Commercial CR remains on very good level, supported by excellent performance of MidCorp (85.6%), AGCS and AZ Trade.
- **4Q 2023 – solid OP despite EUR 0.8bn NatCat impact**
High NatCat and weather-related claims. CR up 0.6%-p, driven by commercial lines. Attritional LR and ER distorted due to one-offs.

P/C: combined ratio at 93% assuming normal NatCat

Comments

- **Germany – NatCat and inflation**
Higher CR driven by NatCat and large losses as well as inflationary pressures, particularly in motor.
- **UK – profitability improves**
Better CR in retail (incl. SME and fleet) and commercial as well as higher investment result.
- **France – CR on good level**
Improved CR driven by lower large losses and less NatCat.
- **Italy – very good CR**
Healthy profitability despite NatCat and less favorable run-off result.
- **Australia – high claims inflation**
CR increases due to high inflation and lower run-off result.
- **CEE – excellent operating profit**
Double-digit OP increase driven by higher top-line, strong CR and better investment result.
- **Spain – operating profit and CR improve significantly**
Solid performance in a challenging market environment.
- **LatAm – good progress after portfolio turnaround in Brazil**
- **Switzerland – CR remains strong**
NatCat and worsening of attritional LR offset by better run-off result.
- **Allianz Partners – operating profit at EUR ~300mn**
Sustained good performance. Lower CR driven by ER, partly from change in business mix.
- **AGCS¹ – strong performance**
Higher profitability supported by better attritional LR and ER. CR incl. fronting & captives down -1.1%-p to 94.5%.
- **Allianz Trade – profitability remains on outstanding level**
Operating profit improves 16% due to excellent growth and higher investment result. Methodological refinement impacts CR, LR and ER, particularly in 4Q 2023. No impact on bottom line.

L/H: value of new business at EUR 4bn

Comments

- **Value of new business up 2.2% to EUR 4.0bn**
VNB growth driven by volume with attractive NBM. Share of capital-efficient products in VNB at 45% resp. 29% for Protection & health and 19% for UL w/o guarantees.
- **PVNB grows by EUR 1.1bn**
Good sales momentum (EUR +4.2bn resp. +6%) partially offset by F/X (EUR -0.9bn resp. -1%) and impact from economics (EUR -2.7bn resp. -4%), mainly discounting impact from higher interest rates. Sales performance supported by Allianz Life (EUR +2.5bn), Allianz Re (EUR +1.3bn) and Türkiye (EUR +0.3bn). Share of preferred lines at 92%.
- **New business margin**
NBM remains on attractive level. All lines with strong margins. NBM well above our target level of 5%.
- **Economic reinvestment yield (debt securities) at 4.8%**
Reinvestment yield up to 4.8% from 3.2% for 12M 2022.
- **USA – largest contributor to VNB with 28% share**
Sales increase supported by FIA sales promotion. NBM strong at 6.1%.
- **Germany Life – share of preferred lines at 86%**
Decline of PVNB driven by economic impacts (EUR -1.3bn resp. -8%) and a decline of single premium business, partially offset by higher sales in business with recurring premiums.
- **Asia-Pacific – double-digit VNB growth with 9.2% NBM**
In local currency new business sales grow 3%. NBM benefits from model and assumption changes in Taiwan and Thailand, as well as better business mix.
- **Italy – better business mix**
VNB growth driven by more profitable business mix, i.e. higher share of business with capital-efficient products.
- **France – 86% VNB growth**
VNB growth driven by better NBM and attractive business mix.
- **Germany Health – good underlying growth**
Good underlying growth more than offset by economic impacts (EUR -0.7bn resp. -24%) including adverse discounting impact.

L/H: normalized CSM growth at 4.9%

Comments

- **Gross CSM slightly up by EUR 0.4bn**
Normalized CSM growth (EUR 2.6bn) and economic variances (EUR 0.5bn) largely offset by non-economic variances/assumption changes (EUR -2.7bn).
- **Normalized CSM growth strong at 4.9%**
CSM release of EUR 5.0bn (release rate of 8.6%) in line with expectations. CSM release more than replaced by healthy level of new business (EUR 4.5bn) and expected in-force return (EUR 3.0bn). Resulting normalized CSM growth of EUR 2.6bn resp. 4.9% at the higher end of expectation (4 – 5%).
- **Expected in-force return**
Impacted by true-ups (EUR +0.3bn). Implied expected in-force return at 5.8% as result of implied risk-free unwinding rate of 4.4% and an over-return yield of 1.4%.
- **Economic variances**
Favorable impact from market movements (EUR +0.9bn) driven by higher equity markets and lower interest rates offsetting adverse impact from weaker real estate. Negative impact from F/X (EUR -0.4bn).
- **Non-economic variances/assumption changes**
Decline driven by model changes (EUR -0.4bn), reclassification of investment business in Mexico from IFRS 17 to IFRS 9 (EUR -0.7bn) and a one-off cost correction at Germany Life (EUR -0.8bn), the latter with limited impact on net CSM. The remainder is assumption and experience variance (EUR -0.8bn) including impact from lapses.
- **Net CSM up EUR 0.9bn**
Net CSM is driven by normalized growth.
- **Duration of assets at 8.7 and 8.5 for liabilities**
- **CSM sensitivities**
Lower equity market sensitivities vs. 3Q 2023, mainly due to model enhancements. Other sensitivities broadly unchanged.

Comments

- **Operating profit strong at EUR 5.2bn**
CSM release in line with expectations. CSM release ratio at 8.6%. Strong contribution from operating investment result, ahead of expectations (EUR ~0.7bn). All other profit sources broadly in line with expectations as well.
- **Limited comparability with previous year's figures**
In the prior year impact from accounting mismatch in USA due to first time adoption of IFRS 9/17.
- **Operating investment result at good level**
Strong contribution from USA, CEE, Germany Life and Asia supported by higher investment income on shareholders' equity. Prior-year result impacted by accounting mismatch USA.

Comments

CSM

- **USA**
Strong normalized CSM growth (EUR 0.7bn) more than offset by F/X (EUR -0.4bn) and non-economic variances/assumption changes (EUR -0.7bn).
- **Germany Life**
Good normalized CSM growth (EUR 0.8bn) offset by a one-off cost correction (EUR -0.8bn).
- **Italy and CEE**
Normalized CSM growth and positive impact from economic variances.
- **France**
Adverse impact from non-economic experience variance, the latter mainly due to lapse experience.
- **Asia and Germany Health**
Strong normalized CSM growth and positive impact from model changes.

Operating profit

- **USA – strong profitability**
Prior-year result from Allianz Life USA impacted by accounting mismatch due to first time adoption of IFRS 9/17. Based on a normalized operating profit in 2022 (EUR ~1.0bn), growth would be in the mid-single digits.
- **Germany Life**
Profitability remains on strong level.
- **Italy – high single-digit profit growth**
Higher contribution from capital-efficient products and P&H. Share of UL w/o guarantees in operating profit close to 50%.
- **Asia-Pacific – good profitability**
Good underlying development supported by non-recurring items.
- **France – double-digit profit growth**
Higher CSM release and improved claims variance in P&H.
- **Germany Health**
Profitability on solid level.

Comments

- **3rd party AuM at EUR 1.7tn**

5% increase of 3rd party AuM versus end of FY 2022.
Strong market impact, supported by year-end rally, and 3rd party net inflows in all regions more than compensate for adverse F/X.

Average 3rd party AuM at EUR 1,667bn in FY 2023, 8% below corresponding level in FY 2022.

4Q 2023: 3rd party AuM increase by 2.5% from EUR 1,670bn to EUR 1,712bn driven by markets & dividends (EUR +97bn), mitigated by adverse F/X (EUR -47bn).

- **3rd party net flows AM segment: EUR +22bn**

Inflows driven by fixed income business and supported by alternatives. 3rd party net outflows from equity business mitigated versus FY 2022 but still affected by industry trends of active asset managers.

- **3rd party net flows PIMCO: EUR +24bn**

FY 2023: EUR 24.4bn 3rd party net inflows driven by fixed income and also from alternatives business; net outflows from multi-assets and equity business.

2) Excluding performance fees and other income

AM: performance fees at record level

Comments

- **Segment revenues – internal growth +2.4%**

Excluding F/X impacts, revenues increase by 1% mainly due to a record level of performance fees, despite lower AuM driven revenues.

Other revenues increase by EUR 107mn (excl. F/X) supported by EUR 29mn dividends from Voya IM (Δ EUR +23mn) and by higher net interest income.

A significantly negative F/X effect (EUR -194mn) leads to an overall revenue decline of 2%.

4Q 2023: excluding F/X impacts, revenues increase by 15% due to higher performance fees (predominantly PIMCO), AuM driven and other revenues. EUR -95mn F/X impact results in a total revenue increase of 10%.

- **Segment margin – 38.9bps**

Slight decrease from 39.2 to 38.9bps (-0.4bps) driven by AllianzGI.

4Q 2023: margin at 39.2bps, above FY 2023.

- **PIMCO margin – 37.8bps**

Comments

- **Segment – OP at EUR 3.1bn**

EUR 3.1bn OP above outlook midpoint of EUR 3.0bn. OP flat excluding F/X as higher levels of performance fees and other revenues compensate for lower AuM driven revenues and slightly higher expenses. EUR -80mn F/X impact leads to an overall OP decrease of 2%.

CIR nearly unchanged at 61.3%, better than 62% assumed for FY 2023.

- **PIMCO – OP at EUR 2.5bn**

OP increases 2% excluding F/X due to a significantly higher level of performance fees, despite lower AuM driven revenues and higher expenses.

EUR -71mn F/X impact results in total OP development of -0.5%.

CIR nearly unchanged at 59.5%.

- **AllianzGI – OP at EUR 667mn**

Lower operating expenses and higher other revenues do not fully compensate for lower AuM driven revenues, lowering OP by 12%.

Outlook 2024 – operating profit

Comments

- **P/C – target midpoint at EUR 7.3bn +/- 10 percent**
Implied growth of total business volume between 5 and 7 percent translating into ~5 percent insurance revenue growth. Expected combined ratio at 93 – 94 percent, assuming NatCat impact of ~3 percent and lower discounting benefit of minus ~2 percent (2023: -2.9%).
Better interest and similar income compensated by higher interest accretion (EUR minus ~1.2bn), resulting in roughly stable operating investment result.
- **L/H – target midpoint at EUR 5.2bn +/- 10 percent**
Expected total business volume (= gross statutory premiums) of EUR 73 – 83bn. Normalized CSM growth expected at 4 – 5 percent. Expected CSM release ratio between 8 – 9 percent.
- **AM – target midpoint at EUR 3.1bn +/- 10 percent**
Normal level of performance fees and investments in future growth result in operating profit midpoint of EUR 3.1bn. Cost-income ratio expected at ~61 percent.

1) These asset classes represent EUR 192.2bn or 26.1% of our total proprietary investment portfolio (excluding unit-linked) of EUR 736.8bn. In addition, we have set 2030 targets to reduce emission intensity by 50% for all corporates (listed and unlisted) and to align our real estate portfolio with CRREM pathways

2) As the specific definition of net-zero is still evolving for financial institutions and we anticipate CSRD requirements, we are no longer referring to the 2030 target for our own operations as a Net-Zero commitment. We will instead refer to it as a 2030 intermediate target. The rest of the decarbonization and removal targets for own operations remain as communicated in the Inaugural Net-Zero Transition Plan

3) For the insurance portfolios, during 2023 we have measured our baseline as per 2022. 2023 and 2024 figures will be available as part of FY 2024 reporting

4) Represents the sub-portfolio of large companies in all sectors, which is managed by Allianz Global Corporate and Specialty and for which greenhouse gas emission data is available

5) Represents the in-scope motor retail portfolios within 8 OEs (Austria, Benelux, France, Italy, Germany, Spain, Switzerland and UK), where reliable portfolio and emissions data is available

AGCS	Allianz Global Corporate & Specialty
AllianzGI	Allianz Global Investors
AM	(The Allianz business segment) Asset Management
APR	Accident insurance with premium refund (“Unfallversicherung mit Beitragsrückzahlung”): Special form of accident insurance where the policyholder, in addition to insurance coverage for accidents, has a guaranteed claim to the refund of premiums, either at the agreed maturity date or in the event of death.
Attritional LR	Represents the loss ratio excluding claims from natural catastrophes (net) and the results of the prior year’s reserve development (net). Please refer to “LR” (loss ratio), “NatCat”.
AuM	Assets under management are assets or securities portfolios, valued at current market value, for which Allianz Asset Management companies provide discretionary investment management decisions and have the portfolio management responsibility. Assets under management include portfolios sub-managed by third-party investment firms. The portfolios are managed on behalf of third parties as well as on behalf of the Allianz Group. Net flows: Net flows represent the sum of new client assets, additional contributions from existing clients (including dividend reinvestment), withdrawals of assets from and termination of client accounts, and distributions to investors. Market & dividends: Represents current income earned on and changes in fair value of securities held in client accounts. This also includes dividends from net investment income and from net realized capital gains to investors of open-ended mutual funds and closed-end funds.
AY LR	Accident year loss ratio: Represents the loss ratio excluding the results of the prior year’s reserve development (net). Please refer to “LR” (loss ratio).
AZ	Allianz
BBA	Building Block Approach, IFRS 17 measurement model also referred to as “General Measurement Model (GMM)” in the standard.
Bps	Basis points: 1 Basis point = 0.01%.
CEAG	Capital-efficient alternative guarantee [products]. Please refer to “L/H lines of business”.

Glossary (2)

CEE	Central and Eastern Europe
CIR	Cost-income ratio: Operating expenses divided by operating revenues.
CO	(The Allianz business segment) Corporate and Other
Comprehensive shareholders' capital	Shareholders' equity plus net CSM.
Core EPS	Core earnings per share: Calculated by dividing the respective period's shareholders' core net income, adjusted for net financial charges related to undated subordinated bonds classified as shareholders' equity, by the weighted average number of shares outstanding (basic core EPS). To calculate diluted core earnings per share, the number of common shares outstanding and the shareholders' core net income are adjusted to include the effects of potentially dilutive common shares that could still be exercised. Potentially dilutive common shares result from share-based compensation plans (diluted core EPS).
Core RoE	Core return on equity – Group: Represents the ratio of shareholders' core net income to the average shareholders' equity at the beginning and at the end of the year. Shareholders' core net income is adjusted for net financial charges related to undated subordinated bonds classified as shareholders' equity. From the average shareholders' equity undated subordinated bonds classified as shareholders' equity, unrealized gains and losses from insurance contracts and other unrealized gains and losses are excluded. Core return on equity – business segments: Effective 2023, this represents the ratio of shareholders' core net income to the average shareholders' equity at the beginning and at the end of the year. From the average shareholders' equity unrealized gains and losses from insurance contracts and other unrealized gains and losses are excluded and participations in affiliates not already consolidated in this segment are deducted. Comparative periods have been adjusted.
CR	Combined ratio: Represents the total of operating acquisition and administrative expenses including non-attributable acquisition and administrative expenses, claims and insurance benefits incurred, and the reinsurance result divided by insurance revenue.
CSM	Contractual service margin: Balance sheet liability, containing deferred discounted future profits of in-force long duration business. "Gross CSM" also includes (i) the present value of non-attributable expenses, (ii) the part of the CSM ceded to third-party reinsurers, (iii) tax and (iv) non-controlling interests. "Net CSM" is an adjusted CSM which deducts the respective items (i), (ii), (iii) and (iv) from Gross CSM.
Current yield	Represents interest and similar income divided by average asset base at book value.

Glossary (3)

dNPS	Digital net promoter score: A measurement of customers' willingness to recommend Allianz.
ECL	Expected credit loss
Economic reinvestment yield	Reflects the reinvestment yield, including F/X hedging costs on non-domestic hard-currency F/X bonds as well as expected F/X losses on non-domestic emerging-market bonds in local currencies. The yield is presented on an annual basis.
EIOPA	European Insurance and Occupational Pensions Authority.
ER	Expense ratio: Represents operating acquisition and administrative expenses including non-attributable acquisition and administrative expenses divided by insurance revenue. All income and expenses related to reinsurance contracts held are part of the reinsurance result which is part of the loss ratio.
Expected in-force return	Unwind from discount plus normalized investment over-returns from in-force book above valuation rate.
F/X	Foreign exchange rate
FIA	Fixed index annuity: Annuity contract under which the policyholder can elect to be credited based on movements in equity or in bond market indices, with the principal remaining protected.
FV	Fair value: The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.
FVTOCI	Fair value through other comprehensive income – change in fair value shown in OCI.
FVTPL	Fair value through P&L – change in fair value shown in P&L.
Goodwill	Difference between the cost of acquisition and the fair value of the net assets acquired.
Government bonds	Government bonds include government and government agency bonds.
Gross/net	In insurance terminology the terms “gross” and “net” mean before and after consideration of reinsurance ceded, respectively. In investment terminology the term “net” is used where the relevant expenses have already been deducted.
GS&A	Guaranteed savings & annuities [products]. Please refer to “L/H lines of business”.
Held for sale	A non-current asset is classified as held for sale if its carrying amount will principally be recovered through a sale transaction rather than continued use. On the date a non-current asset meets the criteria for being considered as held for sale, it is measured at the lower of its carrying amount and its fair value less costs to sell.

Glossary (4)

IFRS	International Financial Reporting Standards: As of 2002, the term IFRS refers to the total set of standards adopted by the International Accounting Standards Board. Standards approved before 2002 continue to be referred to as International Accounting Standards (IAS).
IMIX	Our Inclusive Meritocracy Index (IMIX) measures the progress of the organization on its way towards inclusive meritocracy. This internal index is based on ten items from the Allianz Engagement Survey (AES) which deal with leadership, performance, and corporate culture.
Insurance revenue	The amount charged for insurance coverage and other services when it is earned.
Insurance service result	Presents in profit or loss insurance revenue, insurance service expenses including incurred claims and other incurred insurance service expenses as well as the reinsurance service result. The following components are also included by Allianz in the operating insurance service result: 1) Non-attributable acquisition, administrative and claims expenses of our operating entities; 2) Adjustments for claims and expense variances where our operating entities share the technical results with the policyholders (only for insurance contracts under the variable fee approach); 3) Restructuring expenses that are shared with the policyholder.
Internal growth	Total business volume performance excluding the effects of foreign-currency translation as well as of acquisitions and disposals.
JV	Joint venture
KPI	Key performance indicator
L/H	(The Allianz business segment) Life and Health insurance
L/H lines of business	Guaranteed savings & annuities [products] (GS&A): Life insurance products linked to life expectancy, offering life and / or death benefits in the form of single or multiple payments to beneficiaries and possibly including financial and non-financial guarantees. Capital-efficient alternative guarantee [products] (CEAG): Products that are based on the general account but involve a significantly lower market risk, either through comprehensive asset/liability management or through significant limitation of the guarantee. This also includes hybrid products which, in addition to conventional assets, invest in a separate account (unit-linked). Capital-efficient products offer a guaranteed surrender value at limited risk, due to, e.g. precise asset-liability management or market value adjustment. Protection & health [products] (P&H): Insurance products covering the risks associated with events that affect an individual's physical or mental integrity. Unit-linked [products] without guarantees: With conventional unit-linked products, all benefits under the contract are directly linked to the value of a set of assets which are pooled in an internal or external fund and held in a separate account by the insurer. In this constellation, it is the policyholder rather than the insurer who bears the risk.

Glossary (5)

LatAm	Latin America: South America and Mexico
LIC	Liability for incurred claims
LoB	Line of business
LR	Loss ratio: Represents the total of claims and insurance benefits incurred and the reinsurance result divided by insurance revenue.
LRC	Liability for remaining coverage: Liability relating to coverage that will be provided to the policyholder for insured events that have not yet occurred.
LTC	Long-term care
NatCat	Accumulation of net claims impact that are all related to the same natural or weather/atmospheric event during a certain period and where the estimated gross loss for the Allianz Group exceeds EUR 20mn.
NBM	New-business margin: Performance indicator to measure the profitability of new business in the Life/Health business segment. It is calculated as the Value of New Business (VNB), divided by the present value of new business premiums (PVNBP), both based on the same assumptions to ensure a valid and meaningful indicator.
Net	Please refer to “Gross/net”
Non-controlling interests	Those parts of the equity of affiliates which are not owned by companies of the Allianz Group.
OCI	Other comprehensive income – component of equity, includes revenues, expenses, gains, and losses not shown in net income.
OE	Operating entity
Onerous contracts	Contracts for which the unavoidable costs of meeting the contractual obligation outweigh the expected benefits.

Glossary (6)

OP

Operating profit: The portion of income before income taxes that is attributable to the ongoing core operations of the Allianz Group, which generally excludes the following non-operating effects: realized gains/losses (net), expected credit loss allowance, income from derivatives (net), interest expenses from external debt, impairments of investments (net), valuation result from investments and other assets and financial liabilities measured at fair value through profit and loss, specific acquisition and administrative expenses (net), consisting of acquisition-related expenses (from business combinations), income taxes related incidental benefits/expenses, litigation expenses, and one-time effects from significant reinsurance transactions with disposal character, amortization of intangible assets, restructuring and integration expenses and income and expenses from the application of hyperinflation accounting. For insurance products with policyholder participation, all items listed above are included in operating profit if the profit sources are shared with policyholders.

Operating SII earnings

Operating SII earnings represent the change in own funds, before tax and dividend accrual, that is attributable to the Allianz Group's ongoing core operations. As such, operating SII earnings comprise: expected return from existing business, new business value, operating variances and changes in assumptions, and interest expense on external debt.

Operating SII earnings exclude the following effects, which are disclosed separately in our analysis of own funds movements: regulatory / model changes, economic variances driven by changes in capital market parameters, including F/X rates, taxes, non-operating restructuring charges, capital management (e.g. issuance or redemption of subordinated debt, dividend accruals and payments, share buy-back programs), one-off impacts from, e.g., the acquisition and disposal of subsidiaries, changes in transferability restrictions, and the effects resulting from the application of tier limits.

Own funds

The capital eligible to cover the regulatory solvency capital requirement.

P/C

(The Allianz business segment) Property and Casualty [insurance]

P&H

Protection & health [products]. Please refer to "L/H lines of business".

PAA

Premium Allocation Approach, simplified measurement model as defined by IFRS 17 for short term business, in particular applicable to most P/C business.

PIMCO

Pacific Investment Management Company Group.

PVNB

Present value of new business premiums: i.e. the present value of future premiums on new business written during the period in question, discounted at a reference rate. This includes the present value of projected new regular premiums plus the total amount of single premiums received. PVNB is shown before non-controlling interests, unless otherwise stated.

Glossary (7)

Pre-tax operating capital generation	Represents the change in SII capitalization following regulatory model changes and which is attributable to a) changes in own funds as a consequence of operating SII earnings and b) changes in SCR as a consequence of business evolution. Factors such as market developments, dividends, capital management activities, taxes, etc. are not taken into account.
PVFCF	Present value of future cash flows, balance sheet liability representing the policyholder reserve of the in-force business based on discounted expected cash flows to policyholders including attributable expenses.
RA	Risk adjustment – additional reserve for non-financial risks.
Recycling	Reclassification of unrealized gains and losses from accumulated other comprehensive income (OCI) to the income statement (P&L).
R/I	Reinsurance: Insurance companies transfer parts of the insurance risk they have assumed to reinsurance companies. Reinsurance result: Represents the total of premiums (ceded to reinsurers), claims and insurance benefits (ceded to reinsurers) and expenses (ceded to reinsurers). Reinsurance ratio: Represents the reinsurance result divided by insurance revenue.
RILA	Registered index-linked annuities.
Run-off ratio	The run-off result (net result from reserve developments for prior (accident) years in P/C business) as a percentage of insurance revenue.
SII	Solvency II.
SII capitalization	Ratio that expresses the capital adequacy of a company by comparing own funds to SCR.
SCR	Solvency capital requirement.
SE	Societas Europaea: European stock company.
SFCR	Solvency and Financial Condition Report.
Shareholders' core net income	Presents the portion of shareholders' net income before non-operating market movements and before amortization of intangible assets from business combinations.
SPPI	Solely payments of principal and interest – criterion determining whether fixed income assets are measured at amortized cost, FVTOCI or FVTPL.

Glossary (8)

TBV

Total business volume: It presents a measure for the overall amount of business generated during a specific reporting period. According to our business segments, total business volume in the Allianz Group comprises:

- Gross premiums written as well as fee and commission income in Property-Casualty;
- Statutory gross premiums written in Life/Health; and
- Operating revenues in Asset Management.

Total equity

The sum of shareholders' equity and non-controlling interests.

UFR

Ultimate forward rate: The UFR is determined using the EIOPA methodology and guidelines, and is used for extrapolation of periods after the last liquid point defined by the SII regulation. The UFR is calculated for each currency based on expected real rates and inflation for the respective region. The UFR is subject to revision in order to reflect fundamental changes in long term expectations.

UL

Unit-linked: Please refer to "L/H lines of business".

VA

Variable annuities: The benefits payable under this type of life insurance depend primarily on the performance of the investments in a mutual fund. The policyholder shares equally in the profits or losses of the underlying investments. In addition, the contracts can include separate guarantees, such as guaranteed death, withdrawal, accumulation or income benefits.

VFA

Variable Fee Approach, IFRS 17 measurement model for direct participating business.

VNB

The additional value to shareholders that results from the writing of new business. The VNB is determined as the present value of pre-tax future profits, adjusted for acquisition expenses overrun or underrun and non-attributable expenses, minus a risk adjustment, all determined at issue date. Value of new business is calculated at point of sale, interpreted as at the beginning of each quarter assumptions.
